

An Introduction Betty Kozak

Textiles have always been a part of my life as I learned to sew at a young age and have made everything from blue jeans to parkas since. With my first “real” paycheque, I bought a sewing machine!

Part of my educational background as a Home Economist includes; textile properties and flat pattern design. My sewing journey has included owning a fabric store for 15 years. While a storeowner, I taught sewing and quilting classes both locally and around Manitoba.

Recent classes I’ve taught include; Colour Basics, Serger 101 and Creative Serger and Sew Together Bag.

Over the last 30 years, my passion for sewing and textiles has evolved to a focus on quilt piecing techniques and long arm quilting. A quilt that I made with 2400 pieces, all in neutrals – spurred me on to leap into the world of longarm quilting. I use a variety of techniques while longarm quilting; free motion, ruler work and computerized quilting.

Join me for a lively hour about a Quilter’s Journey; Wonky Seams and all!
